## FAQs ▸ General Technical FAQ

### What if my file isn't printing correctly?

Sometimes a PDF will look fine on your screen, but may not print out correctly (especially if the file is graphic-heavy).

Try this:

1. Open the file in [Adobe Reader](#).
2. Click "Print" within the Adobe Reader application.
3. You can select "adjust to fit" if necessary.
4. Click "advanced."
5. Check the "print as image" box.

IMPORTANT: Before you print, follow the PDF printing instructions from TpT (above): "Print As Image" and "Actual Size" will ensure proper printing and positioning of the file. (Alternately: Make sure "Page Scaling" is set to "None.")
