

Referral forms to go home to parents

Please send the following email home to the families in your building. This is the self referral for the SHINE virtual program we mentioned in the email last week. The superintendents were made aware that this was going to be coming. If you have any questions please feel free to reach out.

Please send it home using this message:

Dear Families

The SHINE Afterschool program is starting the year in a virtual format to help your district keep students engaged in their education and provide needed support services to your children. We hope to return, in person services in January. The virtual program will run Monday through Thursday from 4:30-6:30. It will be delivered in 1/2 hour increments, so there will be 16 different opportunities to participate a week. . Your child does not have to attend every day.

We will be providing:

- Spanish lessons
- Art activities
- Teacher led physical activity and yoga
- Social emotional lessons to help your child relax at this stressful time
- Exciting hands on STEM lessons (packets are going to be distributed so that the students have all the supplies they need.)
- Much needed help with homework or areas they are struggling with in their day classes.

Students that enroll will be eligible for exciting prizes for attending six or more sessions a week. In addition, **SHINE is working on the possibility that free meals may be delivered to your student at home 2X a week! You must be enrolled and actively attending to be eligible for the meals.**

Please click on the link in English or Spanish to register today. Any questions can be sent to carrie.jackson@wilkes.edu
