CONSTRUCTION TRADES STUDENT HANDBOOK

STUDENT

INSTRUCTOR: MR. STANEK

Welcome To The Construction Technology Program

My name is Mr.Stanek. I am the Construction Trades Instructor. Enclosed is an outline of the classroom rules and procedures that must be followed by all students. You will learn an exciting state -of- the-art technology in the construction field that will prepare you for work or college. The most important part of construction technology is safety. For your safety and the safety of others, work ethics and procedures **MUST** be obeyed at all times.

In Construction Trades every student must do all of his/her work, turn it in on time, act appropriately and not disrupt the educational atmosphere for anyone else, and receive a "B" (85%) or better on projects and tests. Projects and tests will be repeated until mastery is obtained.

Parents are the most important people in the students life and are encouraged to participate in the education of their children. Please review the rules and procedures with your son/daughter. I am always available for comments/questions and look forward to meeting everyone at open house and meet the teacher night.

Thank you,

Mr. Richard Stanek

GRADING

Student grades will be based on the following criteria:

25% Tests

25% Quizzes

25% Assignments

25% Projects

WORK ETHIC

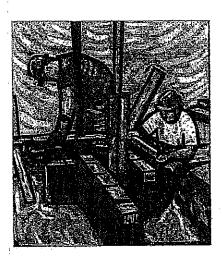

Students are expected to maintain a positive work ethic attitude which includes integrity/honesty, positive attitude, following instructions, communication, acceptance of supervision/respect, active participation, work readiness, clean up, notebooks and behavior. If a student refuses to work on his or her project they will receive a zero for that assignment.

CONSTRUCTION TECHNOLOGY CLASS RULES AND PROCEDURES

- 1. <u>SITTING, LEANING ON OR GOING BEHIND THE INSTRUCTOR'S DESK IS STRICTLY PROHIBITED.</u>
- 2. Safety Rules & Procedures must ALWAYS be followed.
- 3. Regular attendance to class is required. A daily grade will be given to each student. When absent, a zero will be given for that day unless a doctors excuse is provided and work is made up.
- 4. Lateness will not be tolerated. No students will be admitted to class without a late slip after the bell rings.
- 5. Students are expected to participate in class functions. When in class, only construction technology items are allowed. Any other books or items are prohibited. This does include playing cards, CD players or games of any sort. While in class a bell-to bell activity will be followed daily.
- 6. Sleeping at any time is prohibited and will result in discipline and parent conference.
- 7. At no time will horseplay or foul language be permitted or tolerated.
- 8. A thorough and neat notebook is required. A portion of your grade will be from your notebook. Students should bring a pencil/pen to class. A calculator is recommended. Notebooks will be allowed in some tests.
- 9. Students are not permitted to leave the classroom unless authorized to do so by the Instructor with a hall pass. Students must also sign out by entering their name in the sign out book. They must sign back in by noting the time returned.
- 10. Cleanup will start 20 minutes before the end of class and not before.
- 11. Students will remain in the classroom and at their seats until the bell rings. Students are not permitted to gather by the door at the end of the period.

- 12. Students must be actively engaged and focused during instruction.

 Please raise your hand with any questions.
- 13. Respect and trust is a two way street and must be earned.
- 14. No students are allowed to write anything on the board unless told to do so.
- 15. Only tool room attendant in tool room.
- 16. Stay in assigned work area, no one in upper storage area unless instructed by the teacher.

YOUR COOPERATION WILL BE GREATLY APPRECIATED!!!!!!!

CONSTRUCTION TECHNOLOGY SAFETY RULES & PROCEDURES

(a) General Guidelines

In addition to the rules and polices of the Hazleton Area School District, the following safety rules and procedures shall be observed in the Construction Technology Lab.

FIRE ALARM

A flashing bright light and a loud audible tone indicates a fire alarm. If this occurs, all students must stop work immediately and exit the room in an orderly fashion. All students will follow the instructor out of the room and proceed to the right down the hall and out of the building through the door at the end of the hall. Once outside, all students will stay in a group and follow the instructor where he will perform a student count. No students are to re-enter the building unless told to do so by the instructor or other school official.

FIRE ALARM PULL STATION

A fire alarm pull station is located on the West wall next to the electrical panels.

FIRE EXTINGUISHERS

In case of a fire, extinguishers are located in the front of the room. No one should attempt to extinguish a fire if his or her safety and wellbeing are threatened.

ELECTRICAL POWER

Power Shut Off

Pressing anyone of the red panic buttons will shut off the electrical power.

These buttons are to be used when an emergency arises and power needs to be shut off *OR* when the Instructor gives you permission to shut power off. Because of the strict safety rules we will follow, the chance of anyone getting hurt is unlikely. However, if anyone does get hurt from electricity or any other accident, the first course of action is to turn the power off if you can do so safely. The second course is then to notify the instructor.

EMERGENCIES

If an emergency situation occurs, (i.e. some one gets hurt) notify the instructor *IMMEDIATELY!* If the instructor cannot respond, call the office by using the brown phone in front of the class and dial the extension for the office (EXT5604) or security (EXT5608). Other emergency numbers are posted near the phone.

SAFETY GLASSES AND WORKBOOTS

Everyone MUST wear safety glasses and work boots at all times in the lab area. NO EXCEPTIONS! Violation of this rule will affect your grade and Lab privileges. Repeated offenders risk being suspended or expelled from the Construction Technology Lab permanently!

DRESS CODE

In addition to the standard dress code of the Hazleton Area School District, the Construction Technology Lab has other clothing requirements. While working in the lab or on live work, appropriate clothing must

be worn. There is a chance that clothing may be damaged or soiled. To help prevent injury, shirts must be kept tucked in, long pants should be worn. Jewelry of any type is not recommended. Hair longer than shoulder length must be in a hair net. The student must provide the hair net. All students must wear work boots.

HORSEPLAY

Horseplay <u>WILL NOT</u> be tolerated. This includes, but not limited to; shoving or pushing, fighting, harassing other students or throwing objects of any kind.

TOOLS

Tools are provided free of use by the Hazleton Area School District.

STUDENTS ARE RESPONSIBLE FOR THEIR OWN TOOLS. If a student looses a tool or damages a tool on purpose, at the instructor's discretion, the student will be held financially responsible for the tool and report cards withheld until payment is received.

EACH TOOL WILL BE CHECKED DAILY UPON RETURN.
ALL TOOLS SHOULD BE TREATED WILL RESPECT AND
CAN BE DANGEROUS IF NOT USED PROPERLY. NO
ONE WILL USE A TOOL UNLESS INSTRUCTED TO DO
SO AND HAVE BEEN TRAINED TO SAFELY UTILIZE THE
TOOL. ALL TOOLS WILL BE RETURNED TO THEIR
PROPER LOCATIONS AFTER USE. EACH STUDENT
MUST USE THE TOOLS ASSIGNED TO THEM AND NOT
BORROW TOOLS FROM OTHER STUDENTS.

LISTED ON THE FOLLOWING PAGE IS A COPY OF THE TOOL POLICY:

HAZLETON AREA CAREER CENTER
