Ladybug Doubles

whimsy

WORKSHOP TEACHING.COM

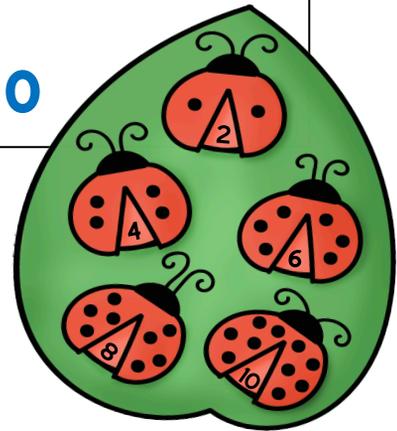

A Note to the Teacher...

This resource integrates art and math for a hands-on way to reinforce math concepts!

Math Concept: Doubles to 10+10

Directions:

1. Copy a leaf for each student using green paper. Students cut out the leaf.
2. Copy five ladybugs for the doubles $1+1$ to $5+5$. Use red paper (or white paper for students to color red).
3. Students cut out and glue their ladybugs onto the leaf.
4. Draw antenna using a black marker.
5. Students draw dots on each side of the wings to equal the number on the ladybug's body.
6. Repeat the directions for another leaf to show ladybugs with the equations $6+6$ up to $10+10$.

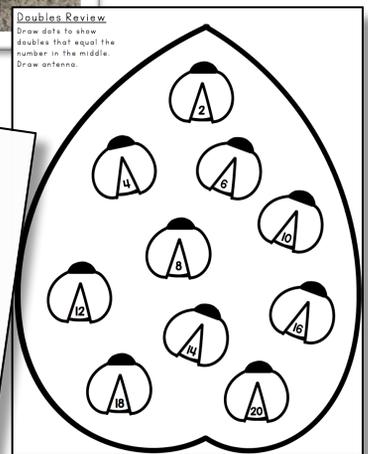

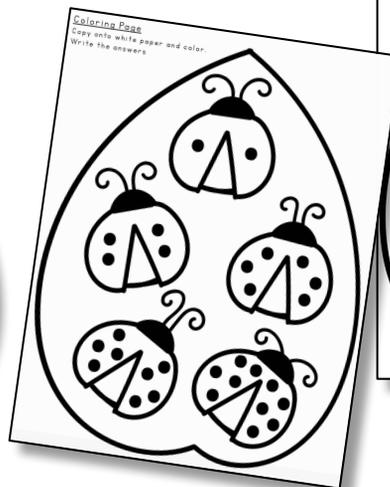

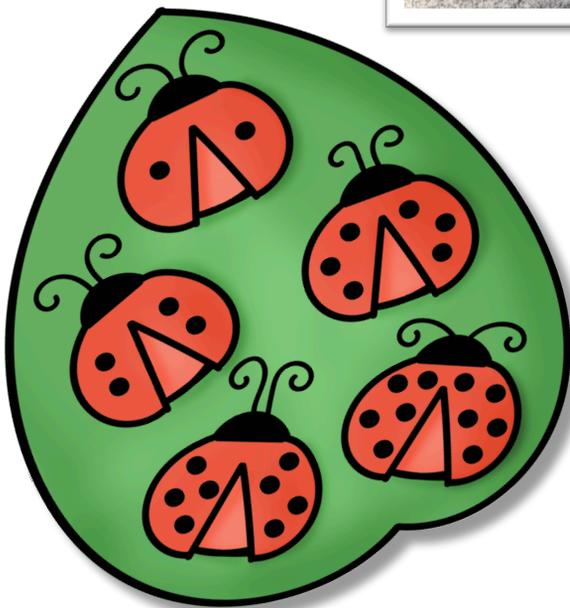

There are several different versions, including coloring pages and a review page for doubles from $1+1$ to $10+10$.

Photos

Students draw the dots to match!

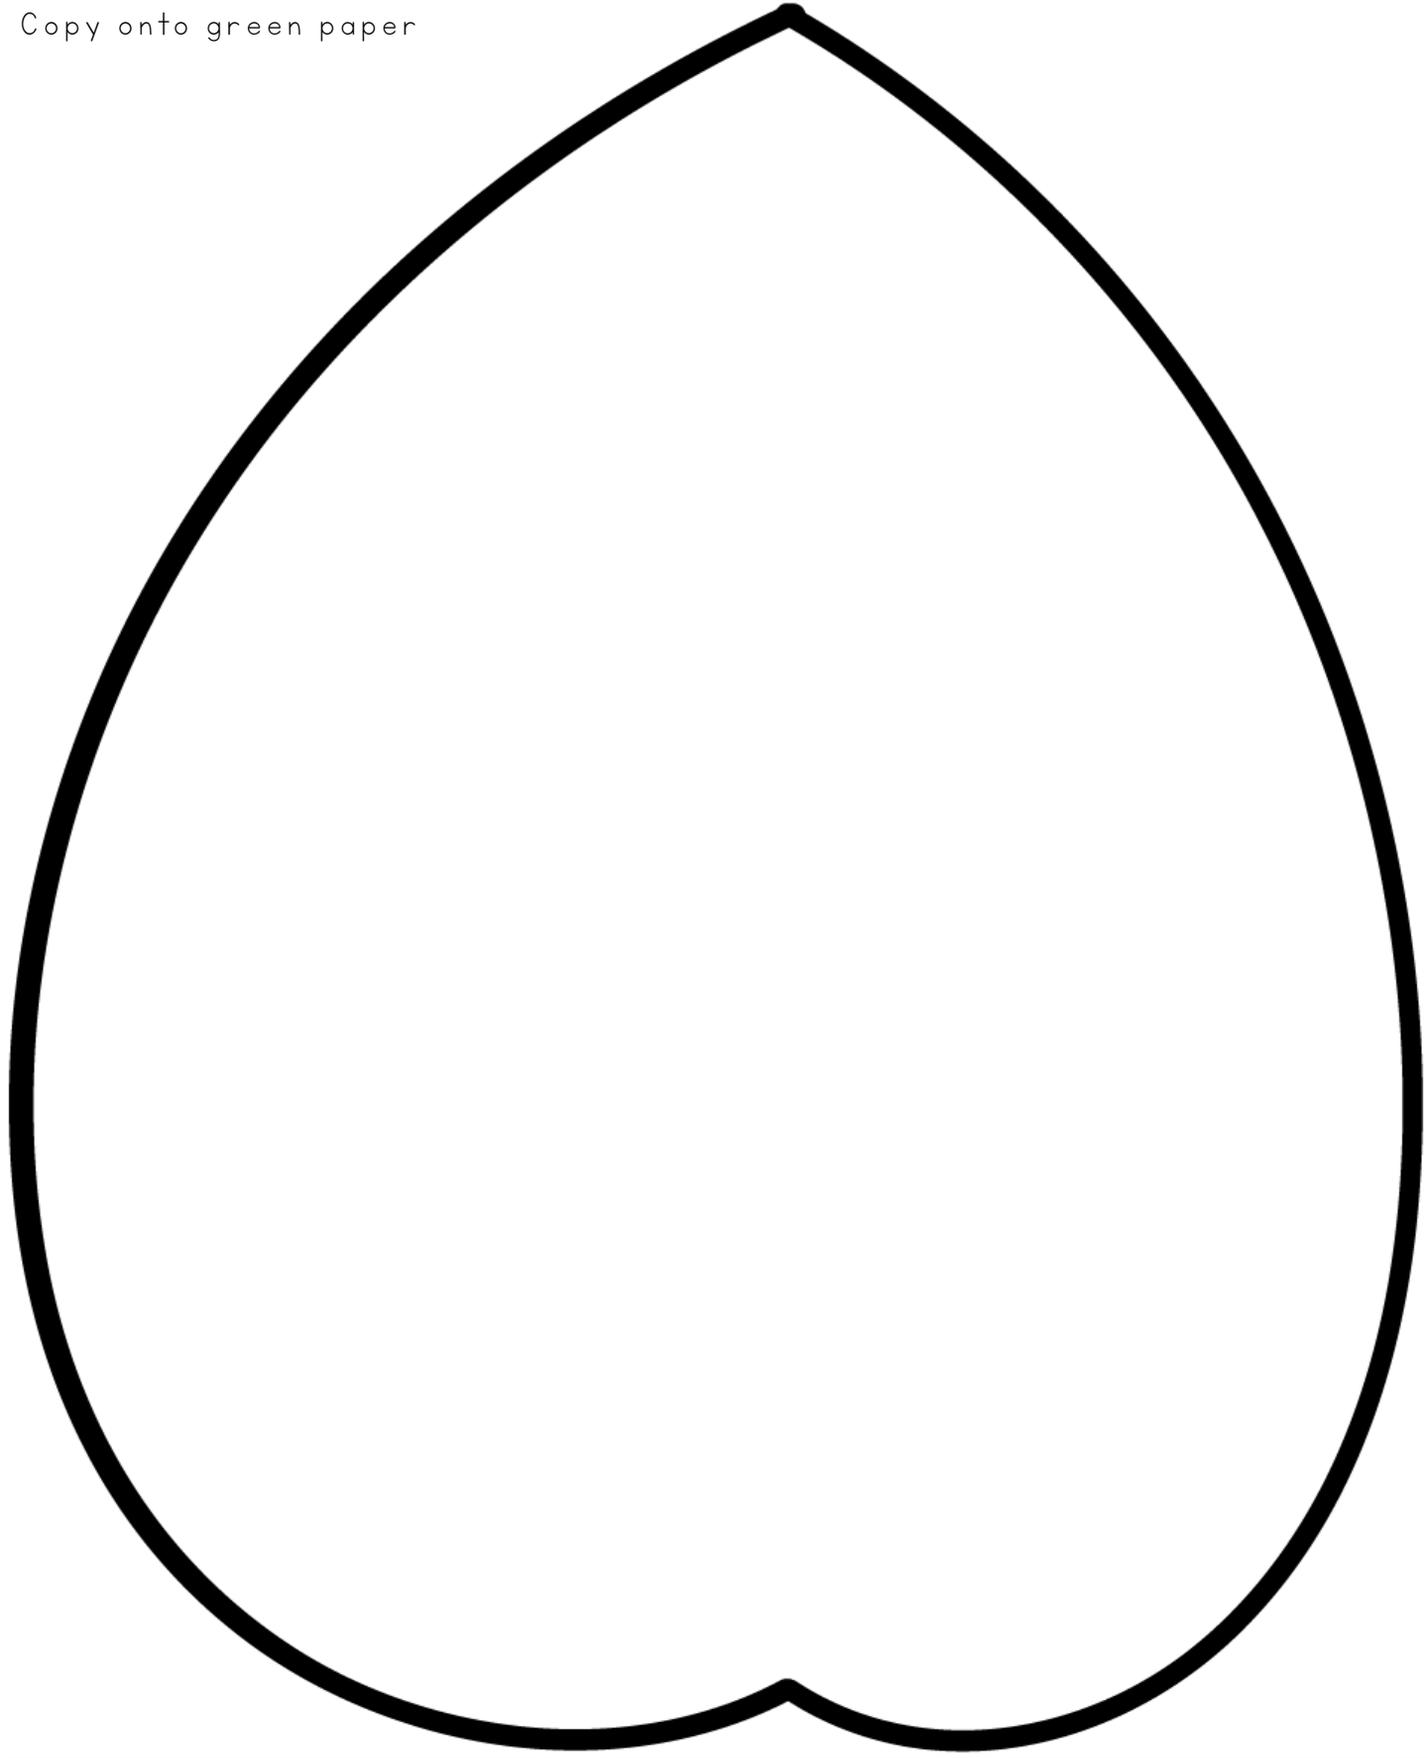

Coloring pages and review pages included.
