

Day	Anchor Descriptor	Eligible Content or Academic Standard	Objective	Strategies for this lesson	Assessment
Mon.	M.8.B.1	M.B.1.1 Convert among metric measurements	Students will convert yards to kilometers to meters using correct conversion techniques.	Students will complete a 1/4 mile run fitness test; they must convert how many kilometers are in a mile and then convert kilometers to meters. Students will be given a conversion table in which they must pull the correct conversions for each problem. Yards to meters and meter to kilometers	<p><b>Formative</b> Students were able to come up with the appropriate conversions given a conversion table</p> <p><b>Summative:</b> Student will be able to convert a 5 kilometer road race into meters. Provided the correct conversions table.</p>
Tues.	M.8.B.1	M.B.1.1 Convert among metric measurements	Students will convert yards to kilometers to meters using correct conversion techniques.	Students will complete a 1/4 mile run fitness test; they must convert how many kilometers are in a mile and then convert kilometers to meters. Students will be given a conversion table in which they must pull the correct conversions for each problem. Yards to meters and meter to kilometers	<p><b>Formative</b> Students were able to come up with the appropriate conversions given a conversion table</p> <p><b>Summative:</b> Student will be able to convert a 5 kilometer road race into meters. Provided the correct conversions table.</p>
<p><b>Connection to Anchor: R.7.A.2.1. Identify and apply the meaning of vocabulary in nonfiction. R.7.B.1.2. Make connections between texts.</b></p>
