

How to Use Elkonin Boxes

1. Say the word to your child (ex: bat)
2. Have them count out the sounds
(ex: b (1) a (2) t(3))
3. Use cheerios or some similar object to push into each box for each sound (ex. If the word has 3 sounds you will use three cheerios to push into each box of the three box set)
4. Have them say the whole word again as they run their finger along the arrow under the boxes
5. Have them remove each cheerio as they say the sound and write the letter in the box
6. Once they have written the entire word have them read it again by running their finger along the arrow again.
